

Team Status Report #5

1. Goals from last week:

- A. Get the app to a version with the baseline features
- B. Update backlog

2. Progress:

This week, we finished up adding the baseline features which included: List events, View an event, Create an event, Edit an event, RSVP to an event, Delete an event, Register a user, and User sign-in. We also updated the backlog to reflect on what has been completed.

3. Next Tasks:

- A. Extend FLASK app by updating an existing route or adding a new route for one or more additional features
- B. Update/Create the needed view(s). Be sure the CSS styles carries through to this new view.
- C. Test App regularly to be sure everything is working.
- D. Commit changes regularly with pertinent messages.
- E. Update product backlog.

4. Agenda for the meeting with Team:

The instructional team will meet two times during the week to complete and assess where we are on the project, information about the scheduled dates and time will be put out to the team on discord.
