

Individual Status Report #2

1. Goals from last week
 - a. Develop skeleton of the Create Account page
 - b. Test that the Create Account page works
 - c. Join Create Account page with other developed parts of the website and test functionality
 - d. Meet with team to agree on general website layout/behavior
 - i. Maybe sketch out wireframe diagram to show the website's UI and functionality
2. Progress made this week
 - a. What I've done:
 - i. Helped finalize the 14 features (8 required + 6 extra) to be added to the event application
 - ii. Assisted in creation of the wireframe and prototype
 - iii. Used the tutorials from this week to get an idea of how to implement my user story: *User should be able to create an account*
 - b. What I learned:
 - i. How to use HTTP requests like POST to enter new information into a flask app
 - ii. How to create text inputs in flask/html
 - iii. How to add navigation elements to different parts of a webpage in flask
 - iv. How to create a route and loop through information in a dictionary in flask
 - v. How to better work as a team and coordinating team discussions
 - c. Where I had trouble:
 - i. N/A
3. Plans and goals for next week
 - a. Similar to last week, save for a few. Am planning on making my goals a little less ambitious to make them more attainable.
 - b. Goals:
 - i. Develop skeleton of the Create Account page
 - ii. Test that the Create Account page works
